

Clubhouse Work Party

April
2000

These are pictures from last weekends work party. As you can see, we have plenty of chairs, mostly due to Aubrey I think. Pictured is Jim VA3CJM and Aubrey VE3TUQ.

Here is the tower installation, so far. A few of the tower braces are damaged, so the idea is to get new ones and

put them on before the sections go up.

Here's Bob VE3LKD installing the door trim. Whenever I do trim I usually hit my thumb more than the wood.

This is the console from Bob VE3XOX. It'll look pretty snazzy when done. The short wall beside the console is how all the coax and wire to the tower will be hidden.
