Monthly bulletin of

The Georgian Bay
Amateur Radio Club

President Tom TSA opened the meeting at Springmount with 21 in attendance.

Our bank balance is \$444.76.

AMATEUR RADIO INSTRUCTION

Tom reviewed the qualifications for the four (A,B,C,D) classes of licences and the format of the D.O.C. "Question Banks" that can be used for study. Rick HIO agreed to lead a team of instructors consisting of Gene IJD, Tom TSA, and Ian HIP, to hold a course this winter for prospective amateurs. Rick will contact the D.O.C. for for guidance on course content.

DUES

It was agreed that our fiscal year will end each December 31st and dues will be expected then for the following year.

Dues shall be \$20.00 a year with no reduction or penalty for early or late payment. But because we are restarting the Club well into 1990, all dues paid until Dec. 31, 1990 will apply as paid up status for 1991.

BREAKFAST MEETINGS

At the A. & W., the second and last Saturday of each month, at 9.30 A.M.

NEXT GENERAL MEETING

November 12, 1990: Program yet to be established.

NETS

Every Wednesday at 9.00 P M on VE3OSR.

Every Sunday at 9.30 A M on 3783 Khz.

QUALITY OF VE3OSR

Tom questioned the performance of OSR and if something should be done about it. It was agreed that the long tail,

noise from distant signals and inability to trigger it from some locations are some of the problems. The Club owns the cavities but Jim CRV owns the repeater, holds the licence and is the only person who has access to it for repairs. It was suggested that if we try to make major changes to it at this time we may end up having it removed entirely or pay \$800.00 rental fee. Also Don IDS said that a move to a new location was being considered for the near future.

It was agreed that we do nothing to VE3OSR for the time being except monitor and note problems.

PROGRAM

A movie explaining the basic operation of the Annual Field Day event was shown. It was produced by Terry CAB and outlined the reasons for staging the event, and described the week-end activities using VE3MTR site as a typical example.

A movie was shown describing some of the activities at the Oka, Quebec situation between the Indian warriors and the Canadian Army. The film was put together by Jim BFV and was authentic footage as recorded from his satellite receiving equipment.

The evening program was enjoyed by all and concluded with coffee and donuts obtained by Ian HIP.
